# HOW TO PLAY

## > BASIC TRICKS <

# KNOW THE STRING

## > HOW TO TIE <

1

**1.** The thickness of the string should be 1mm, the length should be around “4 fingers”, as seen in the image and the advisable material in ‘Nylon’.

**2.** There are 2 knots in the string: one passing through the wooden ball and ball bearing and one passing through the centre of the wooden handle.

2

3

**3.** Tie a knot, leaving about 1.5cm loose edge on the end of the rope.

4

**4.** The end loose of the rope must be inserted in the hole.

5

**5.** Pull the string from the other side, so that the knot is stable and secured.
